

MAIL MARKET PLACE: 6024\_011

The Secap 9KL is an ideal inkjet address and barcoding printer for the small to medium volume mailer that appreciates 600-dpi Hewlett-Packard print quality along with the increased speed and media handling capabilities of this model.

Sharper, clearer graphic images and barcodes can be printed anywhere on the mail piece at print qualities of 150, 300 or 600 dpi.

The 9KL has twelve internal type faces, which are scalable from 4 to 30 points and can be combined with the internal attributes of bold, italic, outline and variable-width.

With over 11,040 different internal fonts, the state-of-the-art 9KL is the printer of choice among quality and value conscious mailers.

The 9KL is a PCL5 graphics printer that can interface with any PC, mini, or mainframe. Windows 95/98 and NT drivers are included.
