

Secap 1012 Tabber/Labeler (TA and LB)

Refer to Item #5345-001 TA and LB

Features / Specifications

The Model 1012 is an affordable Tab/Label affixer that automatically applies adhesive tabs and wafer seals to open-ended mail at high speeds without the cost of in-line tabbing systems. Consistently and accurately seals tri-folded stock, double postcards, newsletters, and booklets (up to 1/4" thick) at production speeds.

It pays for itself by efficiently applying the tabs required to qualify self-mail pieces for substantial ZIP+4 and barcoded discounts.
